

ENVIRONMENTAL MANAGEMENT POLICY

Aurablue Electric Pty Ltd recognises the importance of protecting and enhancing the health, diversity and productivity of the environment for the benefit of our customers, employees, shareholders, the community and future generations.

Our commitment is to deliver our projects in an environmentally responsible manner with due consideration to the principles of Ecological Sustainable Development (ESD). Specifically, the Company is committed to:

- Complying with all relevant environmental legislation, regulations, codes of practice and contractual conditions,
- Preventing pollution of the environment from activities over which we have control,
- Conducting business with suppliers who also have a commitment to responsible environmental management,
- Addressing, as a priority, threats of serious or irreversible environmental damage,
- Conserving biological diversity and ecological integrity,
- Using the real cost of environmental factors in project decisions,
- Providing training and education to employees and contractors, and
- Continually improving our environmental management performance by regular reviews and setting realistic environmental objectives and targets.

All workers are authorised and expected to safely stop work and immediately notify their supervisor if a task carries an unacceptable level of risk.

To achieve our policy goals we will plan and manage our activities in accordance with best practice environmental management principals. This includes achieving an equitable balance between environmental, social and economic considerations.
